

KENISHA GANESH

ABOUT ME

A creative and ambitious Media and Communications Masters student seeking experience in a media related company to gain work experience. Through my three years of academic work in my bachelor's degree, I have gained research skills, a strong use of the English language, as well as learnt the importance of teamwork. My experience at varying editorial companies shows my ability to adapt to any given circumstance. My experience at different editorial companies gave me an insight into the media and communications industry solidifying my love for the industry. In addition to my interests in journalism, I am also keen to explore PR, social media, and the general media and communications realm.

ACHIEVEMENTS

Journalist at FXU Voices

- Took the lead in researching, writing, editing, proofreading and filing stories in a timely manner to the Editor-in-Chief. Also takes an initiative in finding people for interviews.

President of FXU Asian Society

- As I attend a university campus with a small number of ethnic students, it was important for me to start a society where I could meet fellow Asians and have a place which is a constant reminder of my roots. As President, I work in union with the rest of the committee to organise events and take care of the logistics behind running a university society.
